## **GLOBAL SALES DATA ANALYTICS:**

## PROBLEM STATEMENT:

Shopping online is currently the need of the hour. Because of this COVID, it's not easy to walk in a store randomly and buy anything you want. In this I am trying to understand few things like, Customer Analysis and Product Analysis of this Global Super Store.

## **Customers Analysis**

- Profile the customers based on their frequency of purchase calculate frequency of purchase for each customer
- Do the high frequent customers are contributing more revenue
- Are they also profitable what is the profit margin across the buckets
- Which customer segment is most profitable in each year.
- How the customers are distributed across the countries?

## **Product Analysis**

- Which country has top sales?
- Which are the top 5 profit-making product types on a yearly basis
- How is the product price varying with sales Is there any increase in sales with the decrease in price at a day level
- What is the average delivery time across the counties?
